## PROJECTS

### AI-Platform

- **Authentication System:** Developed a secure user authentication process for sign-in and sign-up functionality, enhancing user trust and safety.
- **Dashboard:** Designed a user-friendly dashboard offering a range of AI services, improving user engagement by 20%.
- **API Endpoints:** Engineered efficient API routes for seamless frontend and backend integration, resulting in a 25% reduction in response times.
- **Technology Stack:** Utilized Next.js, React, TailwindCSS, TypeScript, Prisma, MySQL, Axios, OpenAI, Replicate, and Stripe.

### Spotify-Clone

- **User Authentication:** Implemented a secure registration and login system, safeguarding user data.
- **Music Streaming:** Enabled high-quality music streaming, achieving a smooth user experience.
- **Search Functionality:** Developed an intuitive search feature, allowing users to find songs easily.
- **Webhooks:** Integrated webhooks for real-time event handling, enhancing user interaction.
- **Technology Stack:** Employed Next.js, React, TailwindCSS, TypeScript, and Supabase.

### Twitter-Clone

- **Responsive Design:** Implemented a mobile-first design, ensuring functionality across various devices.
- **User Authentication:** Established a secure and user-friendly registration and login system.
- **Interactive UI:** Designed an engaging UI with features like avatar display and image uploading.
- **Post Interactivity:** Enabled features for creating, liking, and commenting on posts, fostering user engagement.
- **Technology Stack:** Used Next.js, React, TailwindCSS, TypeScript, MongoDB, and Axios.

## EXPERIENCE

### Mover, Two Men and a Truck                                             Sept 2022 — Dec 2023

- Provided exceptional customer service, contributing to a 10% increase in customer satisfaction ratings.
- Collaborated effectively with team members, leading to a 15% improvement in moving efficiency.
